This collection of information is required by 37 CFR 1.5. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to 2 hours to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Application No. 10/829,656
Reply to Office action of June 7, 2006

To:
Commissioner for Patents
P.O. Box 1450
Alexandria VA 22313-1450
Attention: Examiner Michael J. Early

Re:
Appl. No. : 10/829,656
Applicant : Nick Boulachanis
Filed : April 22, 2004
TC/A.U. : 3749

Dear Mr. Early,

Please find enclosed a formal response to your office action dated June 7, 2006 and received June 16, 2006.

First and foremost, I would like to thank you for the time you have taken to look into my application, and for the feedback you have been providing.

As requested, a species has been elected; a claim has been redrafted to be more generic, other claims related to the elected species have been identified.

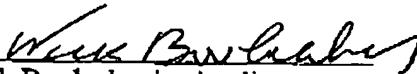

With this letter, I will attempt to provide further clarification regarding my application. The details below are included in the formal response; however I feel that this letter may assist in understanding my request.

Figures 1 and 3 reflect the decorative apparatus for moving candles for which this patent application has been filed and claimed in claim #2. Figures 4, 6 and 7 reflect the same apparatus with a different shape for the container. Figure 13 reflects the same apparatus with a different support for the container (hanging), and figure 14 simply reflects the same apparatus having the motor placed in a different location (top).

My intention is to provide a novel decorative apparatus for moving lit candles, where the source of movement of the candles is not apparent, thus creating the appearance of an object that moves with no external cause.

Please do contact me or my daughter, Androniki Boulachanis if further clarifications are required.

Kindest regards,

By 
Nick Boulachanis, Applicant
